Chineway _ Regulatory and Registration

Imported Drug License (IDL) Application

Chinese government requires all import pharmaceutical material and equipment pharmaceutical (pharmaceutical preparations, pharmaceutical raw materials, pharmaceutical excipients, packaging materials and equipment in contact with drugs) to be approved and registered before they are legally sold in the market. Chineway can provide "regulatory registration" service. Our regulatory affairs department apply directly to China Foods and Drugs Administration (CFDA) for the required IDL. Please note our IDL application services are limited to our business partners and not opened for public.
