

Chineway_ Technical Services _4 Technical support _ Fully formulated coating color guide

Coating process optimization

- Coating assessment
- Trouble-shooting
- Uniformity of the coating process

Chineway has a complete color chart to accurately match the colors displayed (and there are more colors are not showing here). We are very pleased to recommend standard PANTONE color or tailor-made color samples.

What is "Orientcol"? Orientcol: Oriental Color

"Best Quality": the world's highest quality raw materials and strict quality control.

"Premium Service": not just coating, and also provide service to improve core formulation and market information.

"High Technology": coating will affect core dissolution may have some effect on the ingredients. We provide in-depth technical research and customization.

"Premium Market": mainly serve premium market segment, with some technical challenges products.

Orientcol: your "premium exclusive tailor-made" coating premixes.

Chineway's technical service center can provide product feasibility and small scale testing, and our professional technical team can provide scale-up and production assistance.

We turn your formulation problems into solutions save yourself the surprises when you're looking for a partner, come straight to Chineway...
